

ELLACOR

PRE-TREATMENT

Two Weeks Prior to Treatment:

- Do not consume any blood thinning agents such as aspirin, ibuprofen, herbal medications, or supplements such as grapeseed extract, Vitamin E, fish oil, etc.
- Avoid exposure to sun or tanning beds that could result in red, peeling, or swollen skin.
- Avoid invasive and minimally invasive skin treatments in the treatment area.

If you are currently taking any type of blood thinners under the direction of a physician, please discuss this with your treating physician.

1 Day Prior to Treatment:

- Shave excessive facial hair; beard and/or mustache. When possible, use an electric powered shaver to minimize the potential for skin abrasions and cuts.

Day of Treatment:

- The skin on your face, chin, and neck should be free of makeup, lotions, and other skin care products.
- Wear clothes that are comfortable; avoid shirts that have a high neck or collar.

POST-TREATMENT

- Refrain from the following activities until your skin has fully healed and has no open wounds, and holes have closed: Shaving, waxing, makeup and skin care products, using tanning beds and sunless tanning creams; scrubbing, scratching and/or picking at the treated area(s).
- Avoid any activity that could cause injury to the treated site.
- Avoid activities that result in overheating, such as long exposure to hot baths, spas, or excessive exercise.

Speak with your treatment provider who may have additional post treatment care.

How to care for your skin

- Cleanse the treated area twice daily with water and a mild facial cleanser, pat dry with a clean towel. Do not scrub the treated area.
- Follow each cleansing with a light film of petrolatum until healed or as directed by your physician.
- When cleaning your skin, use a clean towel each time to pat dry, or use a paper towel and discard after each use. Do not share your towels.
- Avoid direct and prolonged sun exposure.
- Do not pick or scratch the treated area.
- Avoid sleeping on your face.
- Once skin has healed, use a broad -spectrum sunscreen 30 SPF or higher.
